Cheryl,

Regarding the map you requested, I was able to pull together the named streams in the area, but I'm having some issues getting Wisconsin's 2016 cycle impairment data to map out. The attached map does not include the impaired waters as a result, but I'll keep working through this issue tomorrow. Also, as stated in my email below, the shapefile you sent me of Fall application fields gives me errors when I try to map it. See my suggestion below.

Talk to you tomorrow.

Milo

Hi Cheryl,

Didn't work. I'm guessing it's because you had the data open in ArcMap when you sent me the data. I'm thinking that if you were to close ArcMap (saving your work first) and then send me all of the files associated with the shapefile, it would work out fine.

Hopefully, this worked.

Sincerely,

Cheryl Burdett

Cheryl,

If it's alright, I'd like to have that map I'm doing for you highlight which fields are having manure applied this fall. Can you select them out and send them to me as a separate shapefile?

Milo
